GROWTH BRIEF FOR MENAIA · NOVEMBER 2026

Menaia has the proof. Next is getting AI to tell the story.

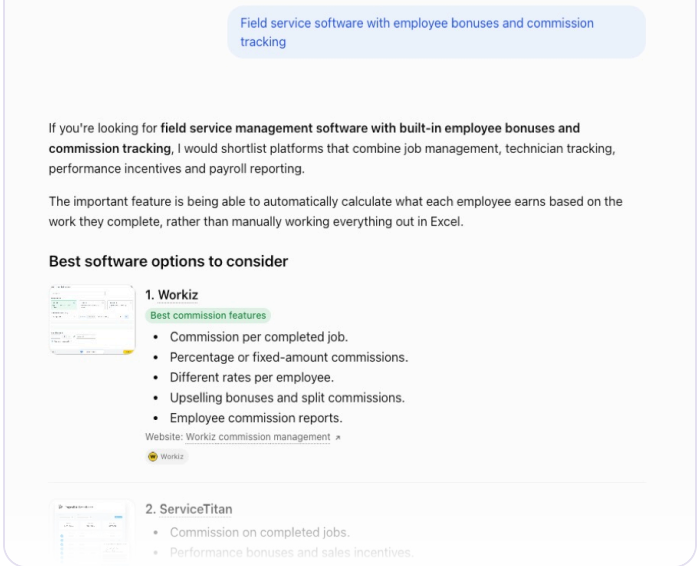

Impressive progress for a platform launched in 2025. This brief covers where trades owners now ask AI which software to buy, and the four moves that would get Menaia named.

WHERE BUYERS LOOK NOW

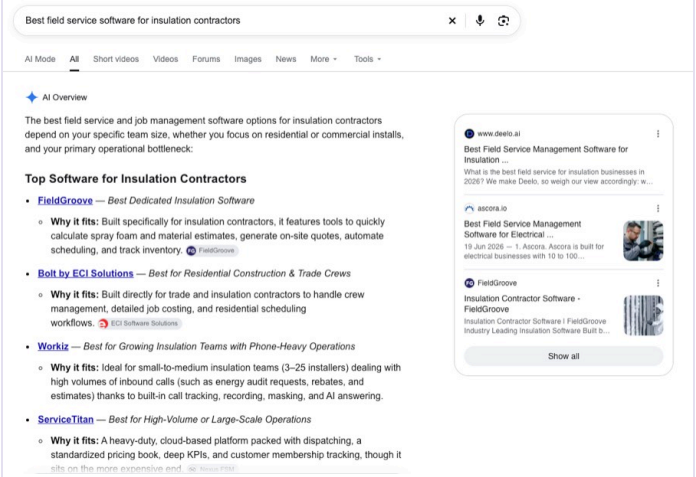

Trades owners are asking AI which software to buy

I asked ChatGPT, Gemini, Perplexity, Google AI Overviews and Google AI Mode four questions Menaia's ideal customer would ask. Across 20 answers the same few names came up. That's normal for a platform this new, and it leaves open space to take. Here are four of them.

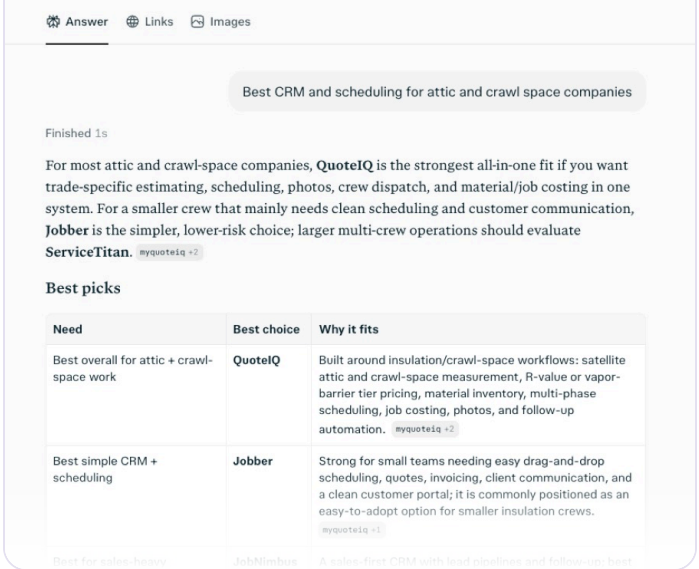

AI ANSWER — Menaia not named

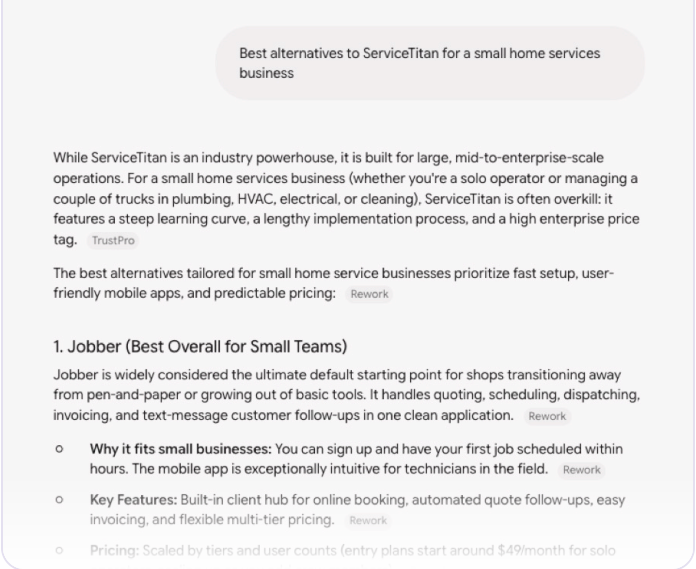

GOOGLE AI OVERVIEW — Menaia not named

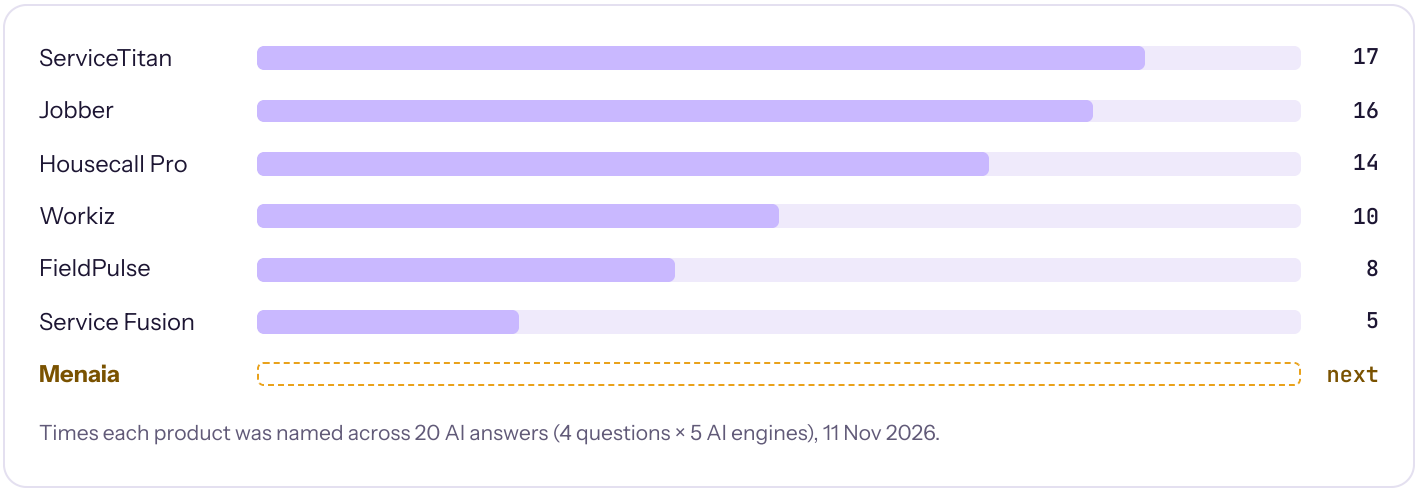

PERPLEXITY — Menaia not named

AI ANSWER — Menaia not named

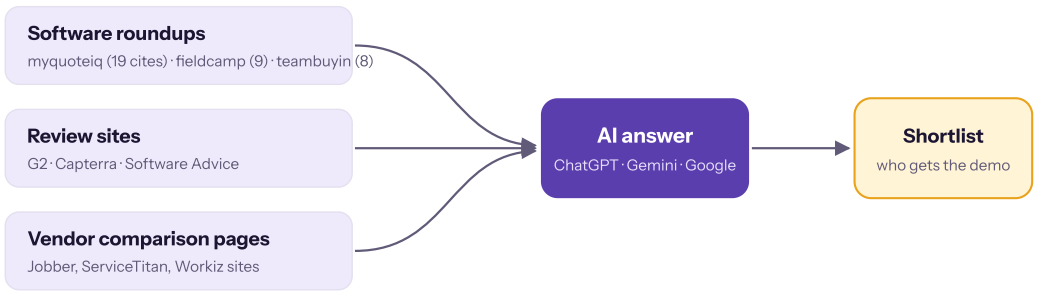

Times each product was named across 20 AI answers (4 questions × 5 AI engines), 11 Nov 2026.

HOW AI PICKS NAMES

It repeats what it reads in a few trusted places

The answers above were built from a small set of sources. The most-cited were software roundups and review sites. Getting Menaia onto those pages is the most direct way into the answers.

FASTEST WIN

Your best proof is in videos AI can't watch

~~34%~~ →

55–60%

Closing ratio after switching

Evan J., Lead Inspector & PM

~~3–4~~ → **10–12**

Crews run a day, across two locations

Luis G., Operations Manager

~~All day~~ → **15 min**

Time to run payroll

Brandon J., Office Administrator

Why it matters: these results only exist as homepage videos. ChatGPT, Gemini and Google's AI read text, so right now they can't see any of it. A short written case study for each puts the proof where AI can quote it.

HOW I'D HELP IT GROW

A 90-day plan to get Menaia into the answers

1

WEEKS 1-3

Turn videos into case studies

Write up the closing-ratio, crews-per-day and payroll stories as text pages AI can read and quote.

2

WEEKS 2-6

Get onto the roundups

Pitch Menaia to the roundup sites and listings the AI already cites, starting with the top three.

3

WEEKS 3-8

Grow reviews to 25+

G2 has 3 and Capterra has 4, which is why AI calls Menaia "not yet proven." Ask the teams already featured on the site first.

4

WEEKS 6-12

Own the crew-bonus question

Comparison pages (vs ServiceTitan, Jobber, Housecall Pro) and one go-to page on performance pay for trades.

Danny Schaffer

I don't sell software or run ads. I get trades businesses, and the tools they run on, named in AI answers and on Google, and I work with one company per trade per area, so Attic Projects' competitors are off the table. Happy to walk through any of this on a 15-minute call.

Method: 4 buying questions and 1 brand question, each run once on ChatGPT, Gemini, Perplexity, Google AI Overviews and Google AI Mode on 11 Nov 2026 (US). AI answers change between runs, so treat these as a snapshot. Search volumes from Ubersuggest (US). Customer results are quoted from testimonials on menaia.com.
